SMART Showcase Schools

SMART Showcase Schools recognize the benefits of using SMART products and services to create an engaging 21st-century learning environment and are excited about sharing their results with the education community. They act as host sites for other school or district stakeholders interested in learning how SMART products and services can improve teaching and learning.

If you are interested in seeing firsthand how SMART products are improving student learning outcomes and helping teachers streamline lesson planning, contact the SMART Showcase School or District in your area.

Thomas A. Edison - Phoenix Elementary School District #1

Contact	Anthony Pietrangeli
Telephone	602.523.5823
E-mail	Anthony.PIETRANGELI@phxelem.k12.az.us
Address	804 N. 18th St., Phoenix, AZ 85006
Description	Edison Elementary School keeps strong ties to its community. The school uses SMART Board interactive whiteboards to support classroom lessons. The curriculum positively impacts learning by letting fifth- and sixth-grade students build interactive activities for the lower grade levels.

"It is our hope to eliminate technology confusion ... to help our students survive in the upper grades, and to survive in their future careers." – Anthony Pietrangeli
